

DentAssure Policy Guide - Renewal, Claims, and Coverage

Internal reference for DentAssure members, visitors, and network clinic staff.

1. Plan Overview

DentAssure Health Plans provide outpatient dental coverage for individuals, families, and employer groups across India. The current flagship products are DentAssure Care, DentAssure Plus, and DentAssure Corporate. Coverage applies only to treatments performed at DentAssure network clinics. Policy year is 12 months from the admission date printed on the member card.

2. Waiting Periods and Eligibility

Preventive care such as oral examination, scaling, and fluoride is covered from day 1. Restorative procedures including fillings and simple extractions have a 30-day waiting period. Root canal treatment, crowns, and bridges have a 90-day waiting period. Implants, orthodontics, and cosmetic veneers are excluded unless the Corporate rider is active. Dependents can be added within 30 days of the primary member enrolment. Pre-existing dental conditions must be declared at enrolment; undeclared conditions may be declined at claim stage.

3. Policy Renewal Guidelines

Renewal is due 30 days before policy expiry. Members receive an SMS and email reminder on T-30, T-15, and T-7. Grace period is 15 days after expiry. During grace, emergency pain relief and extraction remain covered, but planned crowns and elective RCT are paused. If premium is not received by the end of grace, the policy lapses and a fresh waiting period applies. No-claim bonus is 10 percent extra annual limit for DentAssure Plus and 5 percent for DentAssure Care, capped at 50 percent of the original annual limit. Corporate policies renew on the employer anniversary date, not the individual start date.

4. Annual Limits and Co-pay

DentAssure Care annual limit is Rs 15,000 per member with 20 percent co-pay on restorative work. DentAssure Plus annual limit is Rs 40,000 per member with 10 percent co-pay. DentAssure Corporate annual limit is Rs 75,000 per employee, with zero co-pay for preventive visits and 10 percent co-pay for specialist procedures. Pediatric members under 14 years have no co-pay on fluoride, pit and fissure sealants, or space maintainers. Once the annual limit is exhausted, the clinic may continue treatment on a private-pay basis after written consent at the clinic.

5. Claims Submission Rules

Network clinics must submit claims to DentAssure within 7 calendar days of treatment completion. Required attachments are FDI tooth chart, treatment notes, pre and post photographs for crowns, and the signed consent form. Cashless claims under Rs 8,000 are auto-adjudicated within 4 working hours. Claims above Rs 8,000 require desk review and are decided within 3 working days. Reimbursement claims from non-network clinics are accepted only for emergency trauma and paid at 70 percent of the network tariff. Duplicate claims for the same tooth and same CDT-equivalent procedure within 90 days are automatically rejected.

6. Pre-authorization

Pre-authorization is mandatory for RCT with crown, implants, orthodontics, and any treatment estimate above Rs 12,000. The treating dentist submits the pre-auth pack: diagnosis, proposed visits, chair time, and lab prescription. DentAssure desk responds in 1 working day for Plus and Corporate, and 2 working days for Care. Treatment started without pre-auth, where pre-auth was required, is paid at 50 percent of the approved tariff. Emergency pain cases can start immediately; pre-auth must still be filed the next working day.

7. Exclusions

The following are excluded from all DentAssure plans: purely cosmetic whitening, diamond jewelry on teeth, experimental laser bleaching, missed-appointment fees, and treatments started before the policy start date. Sports-guard replacement is limited to one every 24 months. Night guards are covered only when a TMJ diagnosis is recorded in the FDI chart. Tobacco-stain polishing is not classified as scaling and is therefore not covered.

8. Member Support

Members can check remaining annual limit in the DentAssure app or by asking the clinic front desk. DentAssure Customer Care: +91 888 668 6850, support@dentassureplans.com, www.dentassureplans.co.in. Complaints about claim delay must be raised within 15 days of the claim decision. If a clinic is removed from the network, in-progress multi-visit treatments already pre-authorized remain payable until completion or 60 days, whichever is earlier.
